PRESS RELEASE

ISEKI UK & Ireland to Showcase New GPS Raymo remote-controlled range at BTME 2026

ISEKI UK & Ireland is set to make a significant impact at BTME, presenting one of its most comprehensive displays yet to mark the lead-up to ISEKI's 100th anniversary in 2026. The expanded stand and will celebrate a century of innovation, showcasing the breadth and versatility of ISEKI machinery.

At stand 646, visitors can expect to see a line-up reflecting the very best of ISEKI ingenuity. Taking centre stage will be the Raymo remote-controlled range, featuring the debut of the new GPS models equipped with a 48" Craft Deck, a 150Ah battery, and a complete range of Raymo accessories. These machines exemplify the advantages of safe, zero-emission mowing—ideal for areas where conventional equipment cannot operate efficiently.

ISEKI's trusted tractors will also be showcased, ranging from the powerful TG6507 compact to the TLE4550 loader with Trimble Kit. Fine examples of why ISEKI tractors are renowned for their performance, adaptability, and operator comfort across sports turf, landscaping, and municipal settings.

Mowing and collection will be prominent themes on the stand, with highlights including the SXG 327 High tip, and out-front models like the SF551 60" Electric Height of Cut. Grounds professionals will find a range of options combining precision cutting with efficient collection and user-friendly operation.

With expert advice on hand and a comprehensive line-up spanning tractors, mowers, brushcutters, and battery-powered innovations, ISEKI UK & Ireland's stand promises to be an essential stop for visitors eager to explore the future of groundscape machinery, all as part of the brand's centenary celebrations in 2026.
