Dec 2025

## Discover the Latest Advancements in Turf Machinery Sharpening Technology from Foley Company

Foley Company is gearing up for an exciting showcase at BTME 2026, promising to turn heads with its innovative product line-up for the golf and sports turf industry. Visitors will have the opportunity to discuss the range of SALSCO advanced Gas and Electric Greens Rollers, now part of the Foley portfolio available in the UK.

BTME 2026 attendees are invited to visit Foley's stand to experience the first-hand, a range of cylinder and bedknife grinders designed to suit every club and budget. We will be delighted to demonstrate how Foley is redefining turf maintenance with practical, time-saving innovations. There is also the chance to see the revolutionary 642 Quick Spin Reel floor Grinder which offers a fast and user-friendly option for touch-up spin grinding between scheduled relief sessions. The advantage of the 642 is the unique roll-on roll-off floor action making it especially effective for sharpening extra wide and heavy mowers commonly used on sports fields and pitches. Please visit Stand 528 and we will be delighted to talk you through our latest products.

**Editors Notes:**

**ProSportUK** is operated by managing director, Ian Robson, who has 25 years of experience in the sports turf industry - specialising in sports turf maintenance, with a refined knowledge of grinders.

During his career he has worked extensively with head greenkeepers, where his wealth of knowledge helped to enhance their grinding operations. His expertise in the field is backed by the high-profile venues he has dealt with over the years, with the Open Championship courses ranking highly in an extensive list.

Here at **ProSportUK** we are proud to be the United Kingdom and Ireland importer and distributor for **Foley United**, **Neary Technologies**, **Salsco**, **True Surface** and a UK distributor of **AQUA-AID**.
