

PRESS RELEASE

Kubota showcases latest innovations at BTME

Kubota returns to BTME at Harrogate from 22-24 March, where the company will once again join forces with Baroness to showcase outstanding Japanese technology and engineering.

A selection of Kubota's extensive range of machinery for golf and turf will be on show, including new products introduced in 2021.

Heading up the launches is the new LX Series, a range of multi-purpose compact tractors from 35-40hp that allow users to handle a wide variety of tasks ranging from mowing and snow clearance to materials handling and cultivations. With an impressive lift capacity, optional front loader, front linkage and pto, this is a tractor for all seasons that will be the perfect workhorse for golf clubs and sports pitches.

Kubota's mowing equipment is the mainstay of leading grounds maintenance contractors and local authorities across the country, and latest addition to the renowned F Series front mowers, the 38hp F391, will be revealed offering unmatched output and performance for commercial mowing.

Leading the way in utility vehicles for demanding applications, the RTV-X1110 will be on show and Kubota specialists will be on hand to discuss the many ways that it can be deployed and the multitude of attachments available for work on greens, tees and fairways. With a powerful 24hp engine, Kubota's VHT-X variable hydrostatic transmission and dynamic engine braking, the RTV-X1110 is built for hard work and difficult terrain.

Kubota looks forward to welcoming visitors to stand Red Zone 230.

Ends

About Kubota Corporation

Kubota Corporation has been a leading manufacturer of agricultural, turf and construction equipment and Industrial Engines since 1890. With world Headquarters in Osaka Japan, and offices in more than 110 countries throughout North America, Europe and Asia, Kubota achieved revenues of approximately \$20 Billion in 2021. Although, agricultural equipment is

Kubota's primary line of products, Kubota also produces a diverse portfolio of other products including city wide water filtration systems, irrigation, piping, roofing, housing and large underground valves.

Our Brand Statement

Our brand statement, "For Earth, For Life," speaks of our commitment to the preservation of the earth's natural environment while aiding the production of food and water supplies that are vital to societal needs as our world population continues to grow. That mission is realized each time a Kubota tractor harvests the land to produce life sustaining food or our construction equipment excavates to transport water resources or provide shelter.
